I found this game very enjoyable, but I had to put up with a few very annoying bugs/aspects of the game. If 5/10 is average I would give this a strong 6.8/10

[The monsters and ghosts are really well made. You will come across some cool locations such as forests, lakes, train stations, cemeteries and mazes. If you like horror games youll enjoy this no doubt.. Terrible Game. Great game and still enjoyable after all this time](#)

Trendy breaks tradition with this most recent content pack (skin and map, not character), in that they are charging for it from Day 1, much to the chagrin of the community, myself included. I begrudgingly bought it, forgetting about two things: first, the skin is NOT automatically granted with purchase, it needs to be unlocked by completing the Cliffs level on Medium or greater; second, because of the unlockable nature of the skin, as with past skin\map content packs, you do not need to purchase to partake. Just join a Cliffs game and voila, the Bounty Hunter EV skin is yours. And complete Wave 14 of Survival to garner the new awesome Djinnlet pet.

Now, from the first picture above, you may think that this new skin makes the EV one badass DUDE, but think again. Trendy is in fact paying homage to one of the greatest video game characters (& bounty hunters) of all time, Samus Aran of the Metroid series. The way the char stands and the permanent "braid" on the back are further proof.. game doesn't load properly. sound, no picture. black screen. To be honest, I did not spend too much time in AC these days, being more dedicated to rF2 and AMS because of the physics. However, when I saw the incoming Porsches, my hours spent in the Porsche Unleashed installment of the NFS series kicked in, and I simply couldn't resist. So here are my views:

#### **POSITIVE:**

- + wide variety of cars with vastly different handling
- + beautiful models with rich details
- + probably the best virtual dashboards ever
- + the unique Porsche feeling (the constant smile on your face)
- + huge boom on online servers (at least on day one) - the feeling of driving around Nordschleife surrounded by different kinds of Porsches

#### **NEGATIVE:**

- serious extent of sleep deprivation
- unwillingness to move out of the flat, generally turning anti-social
- making you realise that this is the closest you'll ever get to the cockpit of a 918 Spyder (or any other P.)

I already had a lot of fun races with the GT4 Cayenne, while comparing the 917 Spyder to the 918 Spyder on the Top Gear Test Track is a uniquely immersive experience. The old beast bites you in the buttock, while the 918 is soo gentle and so powerful at the same time. And I don't even have to say that these cars probably came into existence for the sole reason of entertaining you around Nords.

**Verdict: this DLC is so good that you'll fall in love with AC. Again. And again.**

**Video of the 918 doing a lap around Top Gear Track:** <https://youtu.be/VBh00BHBhf8I>. Easily one of the best Indie games I have ever played, and will probably ever play. The graphics, the psychedelic scenery, colors, abstract shapes and themes are incredible. HIGHLY recommended if you're looking for something new and different to play. I find this particular game relaxing, engaging, exciting, and so. SO much fun. I sincerely hope that this series is continued! EASILY worth the price.. Its a fine game. Very interesting.. it is firy nice. If you have a Vive, this is a must own game. Don't let the graphics fool you, when you put the Vive on you don't even notice. PvP in a first person shooter is way cooler than I could have imagined. The community is great, everyone is very friendly. The Dev is super fast and responsive on the discussion board and actively updating the game. Even in Early Access this title feels like a complete game. Dodging and using cover in VR is about the coolest thing I've done in a long time.

[Teleportion is done right. The guns feel great. Everything feels very well balanced. From someone playing in S Korea lag is usually a problem, but I didn't even feel it in this game. Very well put together!](#)

[This will be the best 15 bucks you spend on your Vive.](#)

[here's a little gameplay footage of me getting rekt](#)

<https://www.youtube.com/watch?v=49QQJsKxvjk>. Grinding on this game is just insane. Captain dialogue gets really old, really quick, and they do not offer a skip/cut feature. Could not even finish the game, which never happens for me.. Yes, she's wearing just two strawberries and a banana.

---

[This outfit is exactly what it looks like.](#)

[X and Y are different based on the color of the gloves.. hey we should code an entire versus mode in our game and then make it not have online capabilities. because everyone has friends who love weird tetris knockoffs and playing them on the same keyboard on my laptop while i'm stuck in a hotel room all alone because the train got delayed and i just wanted to play some damn tetris anyway the game is pretty fun but it has \u2665\u2665\u2665\u2665\u2665 multiplayer and the ai's stupid](#)
