GBCopy version 2.0

Local Network Configuration

GBCopy is free software for copying. It can be run on diverse platforms.

GBCopy has been developed by Dung Luong. It's written in pure Java.

GBCopy is free and always free. That is GBCopy passion.

Key features:
- Copy files or folder over network (can utilize 99% network card load) using GBProtocol.
- Copy files faster than FTP 4 - 5 times depend on file compression ratio on transferring.
- Fastly synchronize data between 2 locations.
- Backup, support compress file and rename.
- Notified by email when task complete.
- Platform independent (can run on Window, Mac, Linux)
- No require installation, just config and run.
